EXAMINER'S AMENDMENT

1. Applicant's request for reconsideration, with regard to applicant's phone interview with the examiner's supervisor Andrew Wang, of the finality of the rejection of the last Office action mailed 9/9/2004 is persuasive and, therefore, the finality of that action is withdrawn.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Richard B. Lazarus on 10/13/2004.

The application has been amended as follows:

- a. Claims 24-29 have been cancelled, which are the withdrawn non-elected invention.
- b. Claim 13, line 2, after 'drug,' the phrase "**or a natural product**" has been deleted.
- c. Claim 13 of step (a), line 5, after 'the,' the term "**compounds**" has been deleted.
- d. Claim 13 of step (d), line 22, after 'drug,' the phrase "**or a natural product**" has been deleted.
- e. Claim 15, line 2, after 'of,' the phrase "**a natural product**" has been deleted.

2. The following is an examiner's statement of reasons for allowance:

Art Unit: 1639

The claims are allowed for the reason that the cited prior art does not teach or fairly suggest the claimed high throughput method for determining whether a known compound or a mixture of compounds is suitable for intended use as a drug wherein the method comprises a membrane with pore sizes that will not allow passage of the biological material out of the chamber, but allow passage of the compound or a mixture of compounds and/or product of the reaction between the biological material and the compound or a mixture of compounds out of the chamber. Furthermore, the written description and 112, 2nd rejections were withdrawn since the claim clearly delineate the required pore size.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
